

***If you love dogs then you will love this two day workshop
with Catherine O'Driscoll from Canine Health Concern***

Holistic Canine Healthcare:

- The practical aspects of a raw/natural diet: the right foods / how much / where from / what to avoid
- Natural immune boosting: how and what to use / the body's requirements
- Using vitamins/minerals/supplements: function and food sources / when to add
- Using natural products: to maintain health or for specific purposes
- Complementary therapies and alternative healthcare (looking at the various healing techniques, includes muscle testing and homeopathy)
- There will also be a short section to discuss the pros and cons of vaccines, processed pet food and modern drugs

Catherine is the founder of Canine Health Concern, a non-profit animal welfare organisation which shares information about naturally healthy dogs.

She is the author of best-selling books - "What Vets Don't Tell You About Vaccines" and "Shock to the System". Her film, "In Search of the Truth About Dogs" was awarded Best DVD by the Dog Writers' Association of America. She also lectures on canine health in the UK, Europe, and North America. Catherine writes for Dogs Naturally magazine, Raw Instincts magazine, Dogs Today, and many other dog titles, and her work was featured in a prime-time TV documentary World in Action.
